

Do you or your pet suffer from atopic allergies?

## All-Natural Allergen Neutralizing System (TM) Annihilates Allergy Symptoms ... Leaving Your Household Breathing Easier ... For Less Than You Think.

Whether it's you or your pet that has allergies, I can bet **you're feeling pretty awful**. It's like having a bad cold that never goes away. Humans are usually said to have **atopic dermatitis** and pets can be diagnosed with **pet atopy**.

"The use of Air Quality Management Corp. mold inhibiting pre-treatment in all of our homes and an option to our buyers of selecting **the Allergen Neutralizing System gives us a 'one-two' punch' against surface and airborne mold, creating a better living environment.**" -Mike Pitack, ShoDeen Homes, Geneva Illinois

"I have been an Architect for over 45 years! Understanding Air Purification is critical in today's New Construction and Renovation. I am now convinced that you can **affordably and safely control your indoor environment**. Thanks a million for helping my family!" - William E. Brazley, Jr., FAIA Olympia Fields, Illinois

### Allergies, Atopic Dermatitis or Pet Atopy: Conditions Without a Cure

**The bad news is there is no cure for either atopic dermatitis or pet atopy.** Doctors and vets alike can prescribe creams and medications to control the symptoms and for the secondary infections that often result from the condition.

You know how **awful you feel** – or you see how **miserable** your allergy-ridden friends are – so you can surely empathize with your pets who are suffering and can't even tell you how they're feeling.

Let's take a look at the drive-you-crazy symptoms you're dealing with:

#### **In Dogs and Cats:**

- Excessive scratching and itching of the eyes, mouth, ears and paws
- Chewing on paws or other body parts, can result in bleeding
- Inflamed skin
- Frequent ear infections
- Hair loss
- Constant Licking

### **In Humans**

- Itchy skin, constant scratching.
- Red, itchy, or swollen eyes
- Reddened areas on the skin
- Crusty, scaled areas on the skin
- Problems sleeping
- Symptoms compounded by seasonal allergies, causing, red, itchy, or swollen eyes, ears that become itchy, sneezing, frequent bronchitis

Maybe you've been to a doctor or vet for relief. Topical steroids, antihistamines (eg. Hydroxyzine, Vistaril) and antibiotics are the most common medicines prescribed. **Side effects range from sleepiness to stomach distress, dizziness and confusion.** Topical Corticosteroid creams can lead to **adrenal gland suppression, easy bruising, and susceptibility to skin infections.** To say nothing of the general stress long-term medication can have on internal organs such as the liver and the kidneys.....

### **Don't Suffer from Atopy? Your Home Environment Is Almost Certainly Affecting Your Health**

The EPA claims the average household can be up to five times as polluted as outdoor air.

[insert small picture of dust mite or mold] **Your home may be home to millions of allergy-producing pollen, dust mites and pet dander particulates.** Concentrations of many VOCs (volatile organic compounds), produced by paint, carpet, furnishings, smoke, cleaning supplies and animal odors, can be up to 10 times higher indoors than outdoors. **Even a spotless home contains airborne micro-organisms such as bacteria, viruses and molds.**

### **A Horrible "Cure" For Pet Allergies**

If you suffer from allergies, then chances are your pets may be aggravating your allergy symptoms. The ultimate "solution" may be unthinkable to you....

[insert small picture of woman sneezing] **Don't give up your Pet!**

**Your doctors may recommend getting rid of the pets which are causing your allergies,** but if you're like most pet lovers, they're part of the family. There's no way you'd get rid of the kids, so you're sure not going to put your pup up for adoption!

Besides, the CDC (center for Disease Control) states that **owning a pet can decrease blood pressure, cholesterol levels, triglyceride levels and feelings of loneliness.**

Okay, so you keep the pup and the kitten your son found wandering alone in the park. **But how do you find relief** if you don't want to use medications and you're just not into making herbal teas or timing 15-minutes before and after meals so you can take homeopathic remedies?

### **A Solution So Simple....**

What you need is an environmentally-friendly, non-toxic, all-natural solution to your allergy symptoms. **It's possible to create an allergy-free zone** in which you and your pets can live in comfort. You need the...

[[picture of the portable unit](#)] **Allergen Neutralizing System™**. Yes, you can escape all those unpleasant symptoms you or your family members suffer, or provide welcome relief for Fido and Fluffy. Just imagine it....

Living in an environment **where your skin isn't itching and burning** all the time. How wonderful it would be to **sleep peacefully all night long**. Wouldn't you love to leave the medications in the back of the bathroom cabinet and forget you have them?

Poor **Fluffy doesn't have to chew herself raw anymore**, or scratch until she draws blood. You won't be waking up to the sound of "thump, thump, thump" as Fido's leg bumps against the chair while he's scratching himself at 1am ...3am... and 4:15am....

**The Allergen Neutralizing System™** is a **safe, drug-free way** to help prevent inhaled allergy symptoms by removing allergens from your home that irritate pets and pet owners, allowing them to breathe clean fresh air!

Designed specifically for pet owners, the Allergen Neutralizing System™ traps and neutralizes all the allergens produced by and brought into the home by pets – **dander, dust, dirt, pollen, mold, and other allergens** – **while the special carbon filter reduces all those unpleasant pet odors that linger in the air.** It is **safe, affordable and it works!**

## The System Helps Your Pet By:

- Controlling Pet Atopy (inhalant allergies).
- Stopping the itching and scratching, eliminating the risk of secondary infections.
- Providing allergy relief naturally - no drugs and their possible side effects!
- Leading to in a healthier skin and coat.
- Helping pets breathe easier!
- Neutralizing odors.

"My dog Tasha suffered from severe Atopic Dermatitis (inhalant allergies). She would rub her face into the carpet until it became raw and painful. She was constantly scratching! It was also becoming very expensive: the cost of the shots, oral medication, shampoos and a plastic collar-hood.

Even though I was skeptical, we had the Allergen Neutralizing System installed in our home. **Tasha is now symptom FREE!** She still has her allergies but no longer suffers from them. This has truly been a blessing not just financially but emotionally and physically. Thank you from our entire family!" - Annette Uda, St. Charles, Illinois

[Click here](#) to read Annette's full testimonial where she describes how her family's health improved with the Allergen Neutralizing System™.

You'll notice in the above testimonial that Annette mentions her dog's symptoms disappeared once they got **The Allergen Neutralizing System™**? **Of course, dogs don't experience a placebo effect, so here's proof-positive** that the system truly does make a difference to the air quality in your home, which in turn works to **eliminate your allergy symptoms!**

Not only will it help your pet, but also...

## It Helps You With Relief Of:

- Constant itching and scratching caused by Atopic Dermatitis
- Poor sleep
- Additional seasonal or pet-related allergies, including red, itchy eyes, congestion, sneezing,

## This Isn't Just Your Regular Air Purifier!

[insert photo of Darryl] Hi, my name is **Darryl Morris**, president of Fury-Zone. **I have atopic dermatitis**, so I know really well what it's like to always be itching, have the thin skin around your nose bleed from the scratching, the bizarre sleeping habits.

I've been a homebuilder since 1995, but because of my own allergy conditions, I've always tried to build "healthy homes." I have been featured in the Chicago Sun Times and on Fox News for building healthy homes.

Extensive research into IAQ (Indoor Air Quality) helped me to launch my company and now other builders have inculcated my methods into their homes. So when I say the **Allergen Neutralizing System™** provides you with an allergy-free zone, you can rest assured that it must be effective.

Let's talk about just how it works.

People ask **what makes my system different** from others like it. We are more medically-driven - our systems are recommended by doctors and veterinarians worldwide! I want you to experience **relief from all those awful allergens circulating throughout your home right now**. My systems have been installed in buildings around the world including hospitals, offices, schools and residences since 1993.

**My motivation is to provide you with the means to create an allergy-free zone** so you can not only keep your pets, but so you and they can live in comfort, symptom-free!

**The Allergen Neutralizing System™** provides a unique solution that addresses the **three major indoor air quality categories - Particulates, Micro-organisms and VOCs**.

[Insert photo of the interior working of the portable unit from the "how it works" page]  
Our Allergen Neutralizing Systems™ technologies have:

1. **Patented Germicidal UVC Emitter** which delivers the highest *microbial destruction rate* for mold, bacteria and viruses.

→ Our ultra-violet light bulbs and emitters are **unique** to the Allergen Neutralizing Systems™ and it can't be duplicated. **U.S Homeland Security/ EPA tests confirm** that on average our emitters are **6 times more effective** on a KW basis than our competitors' lamps which were tested! **This means a better purification system and cleaner air for you and your family to breathe!** [Click here to view test results.](#)[\[create link\]](#)

2. **Extended-Life Activated Carbon Filter** *reduces* offensive odors, fumes and smoke.

3. **High Efficiency Particulate Filter** *captures* allergens such as pollen, dust and pet dander so the air will really be purified.

4. **Powerful and Quiet Variable Speed Fan** moves the air up to 250 CFM (cubic feet per minute) or 7.08 cmm (cubic meters per minute) efficiently at an adjustable sound level.

→ You can't clean the air if you don't move it: the fans in the Allergen Neutralizing Systems™ have an exchange rate of up to five times an hour! **So it continually purifies the air in your home**— dust mites and pet dander don't stand a chance! The units also have very low power consumption so you don't end up with a big electric bill and the low fan noise level won't bother you at all. The low fan speed is 38 dBA and the high rate 58 dBA.

Comparable decibel levels from our daily lives include whispering at 30 decibels, a normal conversation-level at 60-70 decibels and a car in traffic at 85 decibels. Some units are so noisy you need to turn them off if you're talking on the phone or if you want to discuss a private matter quietly: you don't need to worry about that with the fan in these units!

**The Allergen Neutralizing System™** combines four **scientifically-proven** air purification technologies to provide a **safe, effective way to purify the air in your home**. It's the **ideal solution** for health-conscious individuals and especially for those with allergies, asthma, compromised immune systems and chemical sensitivities.

## So What Are Your Options?

### Is Relief Worth The Price Of A Cup of Coffee And a Muffin?

Listen, as a fellow allergy-sufferer, I want to help you get the relief that I know will **make a huge difference in your life**. I understand that just because you've got allergies doesn't mean you have 1000s of dollars to spend on expensive units... so I've come up with **some very affordable choices**.

Would you agree that your health and relief from the allergy symptoms you or your pet suffer is worth at least the price of a daily cup of coffee and a muffin? How about if you could improve your health for even **less** than that?

In fact, no matter which you choose, I've made your cost of renting-to-own **The Allergen Neutralizing System™** or purchasing it outright less than you spend to get your daily breakfast-on-the-run.

Here are the options for bringing **The Allergen Neutralizing System™** into your home.

### Option #1 - Have The Whole Home Allergen Neutralizing System™ Installed On Your Furnace: Buy or Rent-to-Own

[insert small picture as per on current website of the unit fitting on the furnace]

- ✓ **3 stage purification filter**

- ✓ **climate control panel**
- ✓ Cleans the air **before** it circulates throughout your home
- ✓ Provides purified air **no matter where you are** in your house.
- ✓ Can be **professionally installed** and this means it will be backed by our **written guarantee.**

Note: a small hole will be cut near the coil of your furnace. This can be capped if you move and take the unit with you.

If electrical work is required, I will provide a *reimbursement coupon* of up to \$50.00 off the GFCI outlet installation fee. Standard installation does not require additional electrical work.

### **Here's What You Get With Your Professionally Installed Allergen Neutralizing System™:**

- **Allergen Neutralizing System™** (using ultra-violet lights) to destroy those impurities
- **Micro-Electrostatic System** (using ultra-violet lights) filters the air
- **Comfort Control Panel** (replaces existing thermostat) – helps to save energy and money!
- All Supply Ducts Receive **Custom-Sized Carbonated Filters** (8 max.) to prevent impurities from leaving the ducts

→ **We accept all major credit cards or [Google Checkout logo]**

### **Own The Whole-Home Allergen Neutralizing System™**

Purchase the Whole Home Allergen Neutralizing System™ today for \$795.00 and receive free shipping to anywhere in the U.S.! That's **a savings of \$182.65 off the rent-to-own option!**

[Purchase The Zone](#) [insert button] and buy **The Whole-Home Allergen Neutralizing System™** online or **call 888-355-4822 toll-free now** to speak with an allergen-specialist.

### **Rent-To-Own The Whole Home Allergen Neutralizing System™**

#### **Here's how it works:**

- 10 monthly payments (**Automatic check draft or Credit card billing**)
- 1st month out of pocket = \$266.65\* THEN \$79.00 a month.

The total amount for the unit is \$948. You can rent it for \$79.00 a month with a minimum rental of 3 months. **IF THE UNIT IS RENTED FOR 12 MONTHS, IT IS PAID IN FULL.**

\* Add \$29.65 shipping and handling. Out-of-state orders are exempt from sales tax.

P.S. Here's what another allergy-sufferer had to say about **The Allergen Neutralizing System™**:

"I have had asthma, since I was a child. Recently I participated in a sleep study and was diagnosed with "Sleep Apnea." After installing your Whole-House System. I find it easier to breathe inside my home. I am able to sleep more peacefully, allowing my wife and I to get through the night. Thank you again" - Byron And Eva Young, Park Forest, Illinois
