

“How to Effectively Eliminate Spam Forever”

Don't you just **hate** it?

You're waiting for that all important e-mail. Whether it's about your brother's promotion or if Clare said “yes” to Frank, the thing is, you can't wait to get the news. But of the 15 new emails, the 1st ones that fill the screen are - **spam!** All of it is **unsolicited, unwanted, and highly annoying**. You didn't give out your address to these people, you didn't ask for information on overseas investments from a company you've never heard of! And what's more, you don't want your teens reading an e-mail & ordering anything from some online pharmacy!

Did you know that every time you open a spam mail, you will receive even **more** spam in the future? Fortunately, there are ways to eliminate this unwanted junkmail from your Inbox effortlessly.

"I have been using SPAMfighter and have been amazed at how many spam emails are being captured! I don't have to go through my 'inbox' and spend hours deleting the junk. I highly recommend everyone to use this brilliant software - and save yourself hours of wasted time."

Gordon Russell
Hastings, UK

www.sovereigncoachworks.com

But a lot of the spam software out there is far too **restrictive**. With some programs, you have to white list any sender from whom you want to receive mail. That means anytime you sign up for a free download, or an ezine, or even if you get a new email buddy, you have to add that address to your white list, or you won't be getting anything from them. *What a pain!*

Other software is not restrictive enough and all kinds of spam still makes its way into your Inbox. People who send out spam are becoming *more creative* with their subject lines, and a lot of the software out there simply isn't keeping up with human ingenuity.

What good are software programs that create more work for you, or that simply don't work effectively?

Surely, there must be any easier way to get rid of the spam cluttering up your Inbox!

Well, there is.

SPAMfighter software is easy to install & use. And even better, using a support network made up of every other SPAMfighter owner worldwide, you can **stay one step ahead** of the guys who are sending out the spam mail!

SPAMfighter is developed for home PC users like you that want to **stop annoying spam from stealing your time!**

Join the 1,620,819 users in the fight against spam by simply **installing this tool** and forgetting about it.

Here are just some of the **benefits** of SPAMfighter:

- Instant protection **forever!**
- SPAMfighter Standard is 100% **FREE** for private use.
- Easy-to-Use – just **install and forget** it. SPAMfighter will do all the work.
- **Saves you time**, from having to go through spam email!
- Protects your PC from malicious programs and spam e-mails.
- Unique picture filter that can recognize spam which is sent as a picture
- Premium and **Fast support!**
- Microsoft certified and Award winning software.
- Privacy Guaranteed - we don't see any of your email
- Keep SPAMfighter Standard for **FREE**.
- Protects against "**phishing**", identity theft, and other email fraud
- Automatic "real mail" protection - means no lost business mails!
- Blacklist domains and emails
- Spam Abuse Reporting with one click
- Automatic Whitelist management
- Does not filter based on simple phrases or "trigger" words. Allows any content
- Language support: **English**, German, Spanish, Chinese, French, Italian, Greek,
- Dutch, Swedish, Norwegian, Suomi and Danish.

Clearly SPAMfighter offers the best in spam protection. Once you **try the free download** you'll wonder how you ever managed without it.

"I am very pleased with SPAMfighter. Your program is working so well that I forget that I have it."

Rev Charles Cockroft
Denison Texas

So what about new innovations that senders of spam use to bypass current software?

No problem!

That's why with SPAMfighter, you're part of a **team**. The program includes a **unique development** so that it *never becomes outdated*.

Here's how it works: Whenever new mail arrives, it's automatically tested by the program. If it's spam, it will be instantly moved to your spam folder. But if you by chance you receive a spam mail that is not detected, simply **block and report** this e-mail with one click of a button. If enough users report the same piece of spam mail, it will be automatically removed from the rest of the 1,620,819 SPAMfighters in 209 countries/areas in seconds.

Now you can get all spam e-mails **removed automatically** and feel safe again – and it is just as easy as installing this tool.

Perfectly integrated with Microsoft Outlook and Outlook Express

If you use SPAMfighter, you will stop receiving spam instantly, and if you by chance still receive a spam email, be pro-active by reporting it. This helps remove it from all other community members with a single click.

“But surely it’s not that bad? I mean spam’s annoying and all, but it’s not really a big deal, right?”

Wrong! In this world of instant messaging and immediate communication, time really is of the essence. Whether you’re a self-employed freelancer or the CEO of a large corporation, spam can hurt your business and your personal communications big-time.

In 1995, a company called cybernet.dk (now Jubii), an Internet Provider in Denmark, was **attacked by spammers**. They used the provider to distribute their mail, and it took a week to filter out the spam. A week in which the clients were not able to use or access their e-mail.

Over the last 12 years, the number of spam emails has increased dramatically... **and it continues to grow daily**.

Could you even imagine a week without use of your e-mail these days? What would that mean to your business? **Yikes**. That story does, however, have a happy ending. The founders of cybernet.dk vowed to take action against the spammers and formed... (you guessed it!) **SPAMfighter.com**.

SPAM ALERT: On an average day, SPAMfighter processes as much as 7,244,054 e-mails and of those 5,589,114 are blocked as spam.

SPAMfighter offers you the perfect way to **protect and free yourself** from unwanted emails permanently and easily. You deserve to enjoy opening your mail and focusing on the news you want to be receiving. Join the battle against unwanted clutter: **become a SPAMfighter.**

So don't delay: there's spam filtering into your system right this minute. And now you can do something about it.

Get SPAMfighter now and follow the clear and easy setup guide to start experiencing a spam free Inbox.

Have a Wonderful Spam-free day!
Best Regards,

[]

"We are very impressed with the 99.9% accuracy of SpamFighter. It saves us 20 minutes of deleting hundreds of spam every day! Communication with our contacts is easier and faster than ever before."
